

Eagle River Nature Center

SCHOLARSHIP OPPORTUNITIES

Natural Science Field Trips

November 1, 2019 through April 15, 2020

The Eagle River Nature Center has received donations from community supporters to provide elementary and middle school classes the opportunity to attend a natural science field trip free of charge. The Nature Center will either pay for bus transportation costs or waive the \$6/student fee for the naturalist guided field trip. Scholarship classes must take place between 11/1/2019 through 4/15/2020 to qualify.

Who is able to apply? Any teacher whose students have difficulty paying our class fee or schools which cannot afford the bus transportation to the Nature Center. If you have special needs, please let us know. We can make accommodations for classes with special financial challenges.

How do I apply? Please write a short statement why your class should be selected to receive this scholarship. Include your name, school, grade, number of students, and whether you prefer the bus transportation or the free class. Please email Asta Spurgis, Exec. Director, at info@ernc.org. General information about our field classes, topics and FAQ's are available at www.ernc.org
